Death has called John R. Rymer from our midst Sept. 22, 1914. Brother Rymer was born August 1849 lived to be 65 years of age.

He professed hope in Christ when very young and joined the Baptist church at Hiwassee Union and remained a member of that church until about two years ago when he moved his membership to Antioch. He was the oldest of 8 children, 4 of whom outstripped him in the lane of life and have passed on before. He also is the father of which have passed into the great beyond. His wife has on before him about 8 years. He leaves 9 children and several grand children and a host of relatives and friends to mourn his loss, but our loss is his eternal gain. He was a good

man as all who knew him will testify he went to church regularly for the worship of God, because he loved God and his cause and always was ready to assist in singing and prayer and was at his post. We have seen him shoot the prizes of his maker when it seemed his cup was running over with joy, but God in his infinite wisdom saw fit to call for him. We can imagine the spirit said to him, you have suffered enough, come up a little higher to a place prepared for you." In our minds eye we see him passing through the air until he comes to the golden gate and see his kindred with the angels coming to meet him but as he is near them stop and step aside and we look and behold Jesus steps out to meet him and then we are comforted because we believe he is resting

with Jesus in the place prepared. Then we do not wish to say farewell but only good-bye for while we hope to meet him again where there will no more sickness trials or death but all will be one eternal day of bliss.

Funeral services were conducted at the home of H. C. Rymer by G. W. Kilpatrick after which the L. O. O. F. took charge and buried according to their mystic rights in accordance with his request.

A game of football was played between McCallie High of Chattanooga and Polk County High in Clemmer's field last Saturday. After the McCallie boys had used every plan they knew and had taxed their capacities to the utmost, the game resulted in a final score of 27 to 7 in favor of McCallie.

ROSE INSECTS.

Rose bushes are becoming highly infested with plant lice, and should be sprayed at once with a strong solution of soap and tobacco.

The Rose-chaffer will be recognized as the yellowish-brown beetle about one-half inch in length. This insect frequents the blooms and causes them to fall quickly. When feasible this insect should be picked or shaken off into a pan or sieve and destroyed. A strong solution of Arsenate of Lead will also be found helpful; 5 pounds to 50 gallons of water.

A rose disease known as Coniothyrium is getting centered in some of the Southern States. This disease may be recognized by a darkish brown spot occurring on the green, increasing in area until it completely shades and kills off of the stem above the affected area. Two reports of this disease have come to the writer during the past month. It is hoped that persons noticing this disease will send specimens, that a knowledge of the distribution of this rose disease may be known. The best advice that can be given regarding the treatment is that of pruning out the affected canes as far as it may be possible, and spraying the remainder of the bushes with some of the fungicides such as Bordeaux Mixture or Haeussler solution, properly diluted. The best time to take action is when the disease is while the roses are in bloom, at much stronger sprays may be used at that time.—B. M. Bailey, Tennessee Experiment Station.

BEING OUT TOO MUCH.

If you under take to farm more land than you can properly care for, the soil will erode the profits will be lost and the farmer will be ruined.
